

Connecting to Horizon

Vann Wheeler - 2024-11-14 - Horizon VDI

Options for connecting to Horizon differ based on the environment. The high security (black) environment has more stringent restrictions to enforce additional data protection rules.

Click an option below to launch detailed connection directions.

High Security (Black Environment)	Standard Security (Gold Environment)
<p>Option 1: Connect to Horizon using VMware Native Client from a VCU/VCUHS-managed Windows/Mac computer (best experience)</p> <p>Option 2: Connect to Horizon using App2Go Citrix Client from any computer</p>	<p>Option 1: Connect to Horizon using VMware Native Client from any Windows/Mac computer (best experience)</p> <p>Option 2: Connect to Horizon using a Web Browser from any computer</p>
