

Accessing VCU Health Email on Mobile Devices

William Crehore - 2023-09-20 - Communication & Collaboration

[iOS \(iPhone / iPad\)](#)

[Android](#)

As of the end of November 2023 Maas360 for email on a Mobile device will no longer work. Microsoft Intune will have to be installed on your Mobile device and Maas360 will have to be removed.

Your Manager will have to request an A3 license via the VCUHS Helpdesk by calling 804-828-6447. Once the A3 license has been obtained, the instructions pertaining to Microsoft Intune can be followed in the link below. Please ignore information regarding VCUHealth owned phones as it does NOT pertain to VCU Employees.
