

Connect to Horizon using App2Go Citrix Client

Rebecca Tucker - 2025-01-15 - Horizon VDI

This article applies to the following environments:

High Security (Black Environment)	Yes
Standard Security (Gold Environment)	Yes, but if you can run a VCU VPN client, Connect to Horizon using a Web Browser is more optimal

Open a web browser and navigate to app2go.vcu.edu

Accept the VCU System Usage Agreement

Enter your credentials (use your ***eid@vcu.edu*** email and **password**) (or select your **vcu.edu** account)

If prompted, select Detect Workspace

Locate and launch the VCU-Remote Access Desktop

From the desktop, launch Horizon Client

First time logging on? You will need to define a new connection.

Select Add Server

Name of the Connection Server:

Manually type in: **black.horizon.som.vcu.edu** and click Connect

Enter your credentials (use your ***eid@vcu.edu*** email and **password**) (or select your **vcu.edu** account) to sign in

A pop-up may appear that needs addressing:

Click OK

In the browser window, change the 01 in the URL to 02 and hit enter

The Horizon Client opens and allows selection of the appropriate black high-sensitivity

environment.
