

Generic Account Passwords

Justin Fedoryk - 2022-02-07 - PC Support

Generic Simulation Account Password Locations

Description: This document is used to help Simulation Staff acquire the Simlab2/Simlab3 passwords after they have changed, based on compliance

****Simulation Staff may need to restart their PC, if they do not see the "Wallaroo" Drive, in order to implement the Group Policy that enables it****

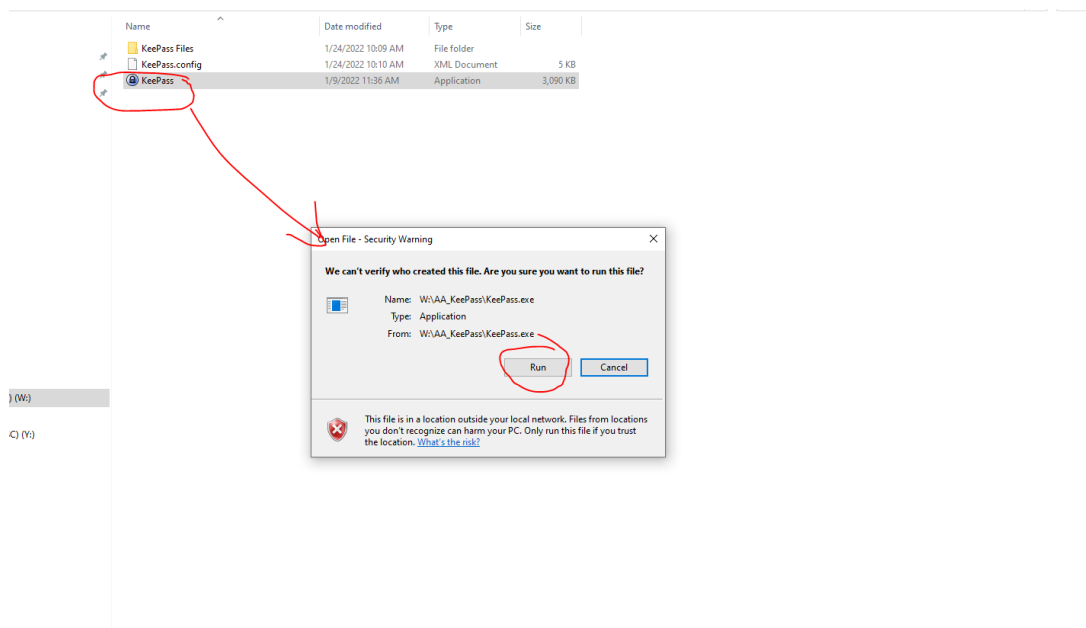

1. In File Explorer under "**This PC**" Select the "**Wallaroo**" Drive

2. Open the "AA_KeepPass" Folder

3. Double Click the "**KeepPass**" application and select "**Run**" when prompted

4. Enter the "**Master Password**" and select "**OK**" (Reach out to a simtech or your supervisor by phone to receive the password)

5. Double Click the Account you need the password for, to open a window for it. Once the window is open, select the icon with the 3 dots to display the password for that account.
