

## Generic Account Passwords

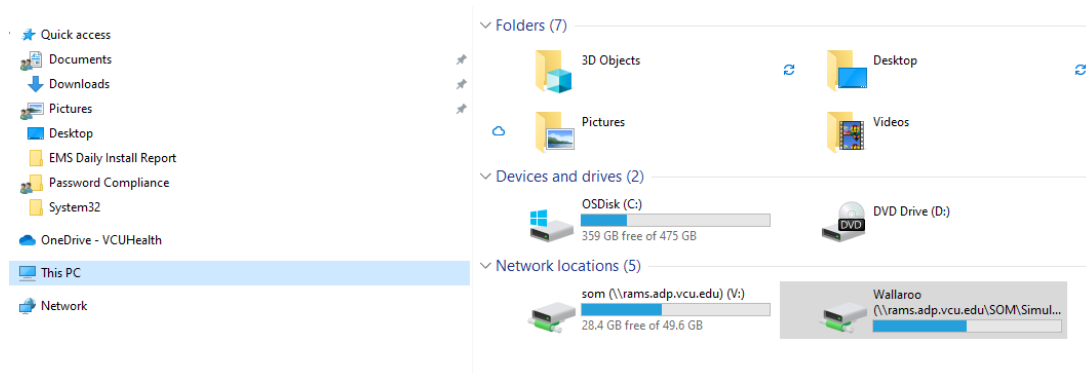

Justin Fedoryk - 2022-02-07 - PC Support

### Generic Simulation Account Password Locations

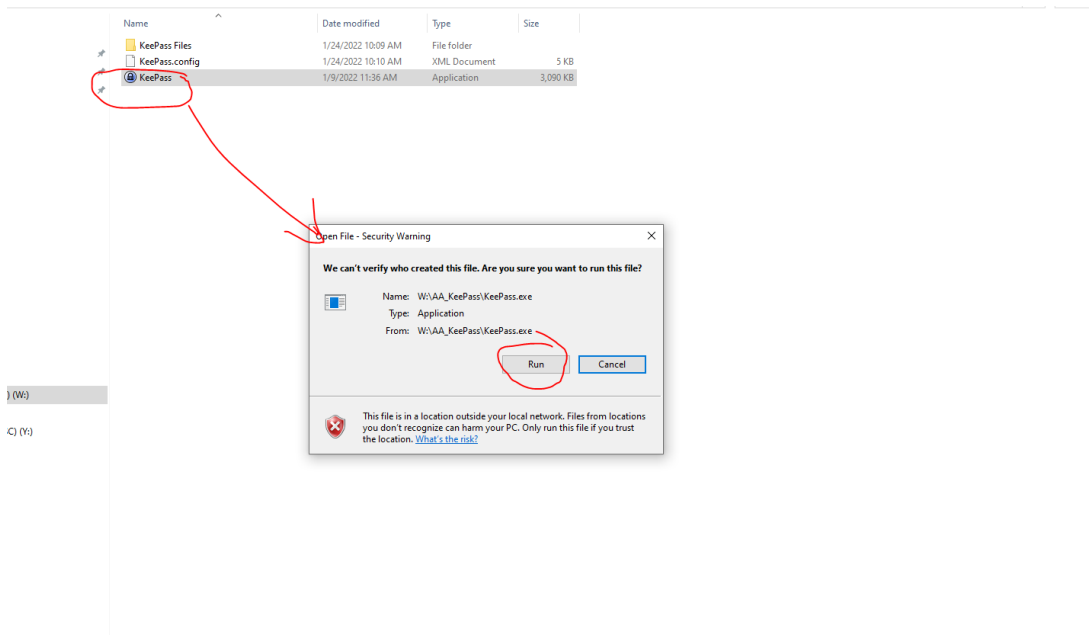

Description: This document is used to help Simulation Staff acquire the Simlab2/Simlab3 passwords after they have changed, based on compliance

***\*Simulation Staff may need to restart their PC, if they do not see the "Wallaroo" Drive, in order to implement the Group Policy that enables it\****

1. In File Explorer under "**This PC**" Select the "**Wallaroo**" Drive

3. Double Click the "**KeePass**" application and select "**Run**" when prompted

5. Double Click the Account you need the password for, to open a window for it. Once the window is open, select the icon with the 3 dots to display the password for that account.
