## **Generic Account Passwords**

Justin Fedoryk - 2022-02-07 - PC Support

Generic Simulation Account Password Locations

Description: This document is used to help Simulation Staff acquire the Simlab2/Simlab3 passwords after they have changed, based on compliance

## \*Simulation Staff may need to restart their PC, if they do not see the "Wallaroo" Drive, in order to implement the Group Policy that enables it\*

1. In File Explorer under "This PC" Select the "Wallaroo" Drive

2. Open the "AA KeePass" Folder

3. Double Click the "KeePass" application and select "Run" when prompted

4. Enter the "Master Password" and select "OK" (Reach out to a simtech or your supervisor by phone to receive the password)

Open D	atabase - Da	atabase.kdbx		×
~	Enter N W:WAA_K	<b>laster Key</b> KeePass\KeePass File	s\Database.kdb>	
Master	password: /provider: ws user acco	(None)		<ul><li>•••</li><li>•••</li><li>•••</li></ul>
Help			OK	Cancel

5. Double Click the Account you need the password for, to open a window for it. Once the window is open, select the icon with the 3 dots to display the password for that account.
