

Connect to Horizon using a Web Browser

Vann Wheeler - 2025-01-15 - Horizon VDI

This article applies to the following environments:

High Security (Black Environment)	No - the Black environment does not allow web browser connections
Standard Security (Gold Environment)	Yes

A VCU remote-access VPN client is required. These directions assume you have installed and successfully connected via one of the following methods:

Standard Security (Gold Environment)	Zscaler Client OR Cisco AnyConnect VPN
---	--

Then,

1. Open your web browser of choice and navigate to <https://gold.horizon.som.vcu.edu>
2. Click on the Hyperlink "VMware Horizon HTML Access"

VMware Horizon

You can connect to your desktop and applications by using the VMware Horizon Client or through the browser.

The VMware Horizon Client offers better performance and features.

Launch Native Client

Check here to skip this screen and always use Native Client.

VMware Horizon

HTML Access

Check here to skip this screen and always use HTML Access.
