Manual Connections

If for some reason, on a SOM-supported Windows computer, the SOM Shares do not map automatically when you login - use the instructions below to manually map the drives.

Connecting to the share drives from personal computers is not permitted. Please reach out to somtech@vcuhealth.org for other connection methods.

Windows PCs

For Windows 10 PCs, please follow these steps to establish a connection:

1. Click the Start button.

2. Begin typing This PC and wait for the results
   (NOTE: If manually mapping on a VCU Health computer - it may rename This PC to match your VCU Health username, look for the icon on your desktop instead)
