

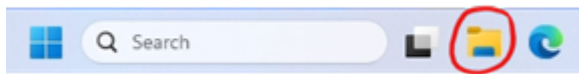

Mapping a Network Drive to access Data in Horizon

Rebecca Tucker - 2026-01-29 - [Horizon VDI](#)

The file storage location should be mapped upon login; in the instance you must map the Horizon network drive yourself, please follow the steps below:

- Open File Explorer

- Right-click on Network
- Select "Map network drive..."
- Establish the mapping based on the environment:
 - Black environment: map to X: drive (<\\storageblack.rams.adp.vcu.edu\projects>)
**Note: only works from within Horizon*
 - Gold environment: map to P: drive (<\\storagegoldsec.rams.adp.vcu.edu\projects>)
- Click Finish
