Mapping a Network Drive to access Data in Horizon Gold

- Log into Horizon Gold Partial Persistence
- Open File Explorer
- Right-click on Network
 - Map network drive...
 - P:
 - \\storagegold\projects
 - Finish
- Open Command Prompt
- Paste appropriate file location link
 - Ex: "c:\Program Files\SASHome\SASFoundation\9.4\sas" -WORK
"P:\Karmarkar_APCD\temp"
- In SAS, File - Import Data -.csv - next
- Browse for file:
 - Navigate to mapped drive - Karmarkar_APCD - source - All files
- Select the file - Open - Next
- Member: APCDclaims - Next
- Browse to data folder - name the file - Save - Finish
- Navigating back to the TEMP folder and right-click on properties to verify progress
- Data will load in SAS window

Note: GREY identifies specific project/data location and will change by project/user
