Setup Horizon Native Client on a VCU-managed Mac computer

Rebecca Tucker - 2025-11-26 - Horizon VDI

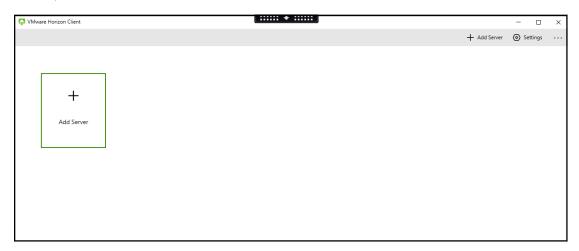

From the Start menu, find and open "Self Service"

Search for and install the Omnissa Horizon Client

Once the software is run, it will prompt for a connection server

To do so, select Add Server

Name of the Connection Server:

 $\label{thm:manually type in: black.horizon.som.vcu.edu} \ {\bf or} \ {\bf gold.horizon.som.vcu.edu}, \ {\bf depending} \ {\bf on} \ {\bf your} \ {\bf assigned} \ {\bf environment} \ {\bf and} \ {\bf click} \ {\bf Connect}$

Name of the Connection Server	
Cancel	Connect

 $For \ additional \ information \ on \ logging \ in, \ please \ visit: \\ \underline{Connect \ to \ Horizon \ using \ the \ Native \ Client}$
