

Setup Horizon Native Client on a VCU-managed Windows computer

Rebecca Tucker - 2024-11-14 - Horizon VDI

From the Start menu, find and open Software Center

Search for Horizon and double-click the icon to install VMware Horizon Client

Open the Horizon Client using the shortcut on your desktop or from your Start menu

If no connections exist, you will need to define a new connection.

To do so, select Add Server

Name of the Connection Server:

Manually type in: **black.horizon.som.vcu.edu** or **gold.horizon.som.vcu.edu**, depending on your assigned environment and click Connect

For additional information on logging in, please visit: [Connect to Horizon using the Native Client](#)
