

VCUSOM 3 Action Boxes

Nathan Hellenbrand - 2024-02-21 - Web & Communications

VCUSOM 3 Action Boxes is used to add 3 action boxes to the page.

The screenshot displays the configuration interface for VCUSOM 3 Action Boxes. At the top, there is a heading field labeled "VCUSOM 3 Action Boxes Heading (150 characters, required)". Below this, three boxes are shown, each with a heading, description, and text field. The first box is dark green, the second is dark red, and the third is dark teal. Each box contains the following text: "Box 1 Heading (150 characters, required)", "VCUSOM 3 Action Boxes > Box 1 Description (required). This content type element type is HTML. It allows for paragraph text, images, bullet lists, and links. However, it is recommended that you do not put images inside of this content area. Multiple paragraphs and bullet lists are also not recommended.", and "Box 1 text (50 characters, required)". The same structure is repeated for the second and third boxes with their respective colors and labels.

Fields include:
