# VCUSOM Custom Meta Tag

Nathan Hellenbrand - 2025-10-10 - [Web & Communications](#)

VCUSOM Custom Meta Tag is used to add a custom meta tag to a section.

Meta tags are typically added to a section in the metadata page but sometimes there is necessary meta information that is not listed in the options provided.

Fields include:

Name - The Name Element

Content - The content attribute - 160 limit

Example: <meta name='author' content='VCU SOM' >
